

EVA PiezoSQ | Piezo control panel

For controlling EVAstream and/or underwater lights outside the pool

With the EVA PiezoSQ3 or Piezo SQ4 control panel, you can easily operate both the EVAstream and underwater lighting from outside the pool.

It can be easily combined with the Piezo3 control panel for inside the pool.

Control panel EVA-PIEZOSQ3-AMB

Control panel EVA-PIEZOSQ4-AMB

The EVA PiezoSQ4 version is equipped with a stop/reset button. With this button, the EVAstream can be easily switched off. This button also acts as a reset, taking the user back to the start menu. See the document with wiring diagrams for details on the electrical connections to the piezo circuit board.

EVA PiezoSQ control panel (for outside the pool)

Product codes	EVA-PIEZOSQ4-AMB EVA-PIEZOSQ3-AMB
Dimensions	For mounting in junction box 50mm depth, diameter 76mm (excl.) (SQ3 - single / SQ4 - double)
Material options	Luxury design ABS (white)
Cable	With 20cm 4x4*0.5mm ²
Cable extension	For cable extension, use data cable with minimum conductor size 0,25mm ² and with a maximum cable length of 30 metres. Recommended cable type LIYY 16x0.25mm ² (Lapp Unitronic) or equal.
IP value	IP20 (for dry environment)
Combination option	It is allowed to connect EVA-PIEZOSQ3/4-AMB and SP-PIEZO3-x parallel to SP-PIEZO-PSU-ADV.
